NETWORK PROGRAMS & ACTIVITIES

A Partner Network and programming focused on R&D, Growth, and Demonstrations of local urban technologies to scale innovative solutions and improve communities

R&D: Urban data, problem and solution analysis. Equipment, hardware and commercialization support for software, hardware and business model innovations and solutions. Based on NYC Media Lab model.

Community: Incubators, accelerators and affordable innovation spaces with multi-stakeholder support scaling solutions and growing NYC's workforce and communities.

Pilots and Scale: Facilitation of PPPs and strategic tech partnerships with corporations and direct connections to government agencies. Proof of concept and demonstration opportunities on public private infrastructure.

“**Urban Future Lab** is the center of cleantech innovation in New York. We are leading the way to a more sustainable world by connecting **people, capital,** and **purpose** to advance market-ready solutions to address climate change.”

OUR MISSION

URBAN FUTURE LAB
NYU TANDON

OUR HISTORY

Urban Future Lab (UFL) is home to the **ACRE incubator**, the longest running cleantech startup incubator in New York City.

2009

ACRE was founded as the 'New York City Accelerator for a Clean and Resilient Economy (NYC ACRE)' -an incubator program supporting cleantech startups. ACRE was formed in a partnership between NYU and NYSERDA.

2014

NYU received a grant from the NYCEDC to establish the **Urban Future Lab** - an expanded center located in Brooklyn to serve as the hub for all cleantech initiatives.

Today

Urban Future Lab is home to ACRE and a number of major cleantech programs such as **PowerBridgeNY** and **Clean Start**.

ORGANIZATIONAL HIERARCHY

URBAN FUTURE LAB

ACRE is a business incubator that advises and provides business resources to cleantech startups.

POWERBRIDGE NY

PowerBridgeNY is a NYSERDA-funded, early-stage technology research and proof-of-concept program.

cleanstart

Clean Start is an NYU Advanced Diploma program for mid-career professionals transitioning to cleantech.

ACRE PORTFOLIO OF CLEANTECH INNOVATION

Our companies have gone to market with ground-breaking technology & business models.

Sealed – raised first securitized fund for home energy efficiency in partnership with the NY Green Bank.

Opus One Solutions – led the implementation of a \$12.4M transnational microgrid project, the first of its kind.

Dandelion Energy – first to offer affordable home geothermal installations for the U.S. market.
